

Why More Fabricators are Switching to Integra Cartridge Adhesive

Faster, Simple, Consistent Color Match and Strong on All Materials

Integra's pre-colored cartridge adhesive system means you get more done with less hassle. It reduces labor, cuts waste and ensures strong, consistent results job after job.

Why Use Cartridges?

Save Time on the Jobsite

Fast, no mixing, no waste, no need for skilled labor.

Minimal Surface Preparation

No sanding, scoring or harsh solvents like acetone. Only denatured alcohol required.

Consistent Color

Same color from cartridge to cartridge. 300+ colors, more than any other product on the market.

Perfect Mix Ratio

Always the perfect mix of hardener and adhesive, ensuring consistent cure rate and avoiding yellowing.

Superior Chemistry

Stronger, more durable bonds. The speed of polyester, the strength of epoxy.

Zero Callbacks

Integra's color matched adhesive delivers long-lasting durability, helping you avoid costly return visits.

Which is more expensive, Cartridge or Bulk?

Bulk adhesive may look cheaper upfront. But what about...

- | | |
|--------------------|------------------------------------|
| ✗ Extra prep work | ✗ Messy clean-ups |
| ✗ Wasted material | ✗ Rework and call-backs |
| ✗ Poor color match | ✗ Yellowing and seam contamination |

Integra Adhesives®

Savings Made Real \$

| Feature | Integra Cartridge | Bulk Adhesive |
|--------------------|--|---|
| Color Matching | Exactly the same color from cartridge to cartridge | Hard to match whites, often inconsistent |
| Application | Fast, clean, controlled | Messy spreading with sticks and mixing boards |
| Surface Prep | Minimal | Requires sanding, acetone, ceramic blades |
| Waste | Virtually none | High due to mixing & excess product produced every time |
| Air Bubbles | None – perfectly mixed in a specialized tip | Common – leading to rework |
| Safety | Uses denatured alcohol | Uses acetone which is hazardous and can stain |
| Labor | Easy for all skill levels | Skilled labor required |
| UV/Heat Resistance | Excellent – Use Surface Bonder Ultra | Polyester adhesive will fail outdoors |
| Seam Aesthetics | Smooth, consistent | Tape methods leave gaps needing rework |
| Risk of Yellowing | Very low | High – often contaminated in prep |

The Integra Cartridge advantage made clear

- ✓ Reduced waste
- ✓ Lower labor costs
- ✓ Faster fabrication
- ✓ Stronger bonds
- ✓ Fewer failures
- ✓ Consistent color

The long-term value is undeniable. Integra Adhesive cartridges are more efficient, more reliable and more professional.

Try a smarter system today

Don't take our word for it—test Integra on your next job and see the difference.
